

Mission and Vision

Sage Electcon

Your Quality Partner in Electronics Construction & Consulting

Mission and Vision Statement

- Sage Electcon is a low-volume contract manufacturer of electronic assemblies and provides leading production design consulting for the military, industrial and consumer-end markets.
- Our manufacturing processes are to satisfy the customer's requirements for electronic assemblies at the best possible value for our clients.
- Sage Electcon is committed to the strategic supply of the highest possible quality electronic assemblies, and to providing excellent customer service to the industry.
- We strive and envision to grow our effectiveness and technological expertise in the near term, and expand our recipe for successful client satisfaction in the longer term.
